Rev. Geo. Beckett's JEFFERSON COUNTY, KX.

OUR design is that of the Female High School, having its number of pupils insured to twenty five, in order to furnish trops of smestic comforts and enjoyments which cam not possibly be alforded by large Schools. The internal regulations are maintained on the principle of delegated parental authority; and our long experience assures us that his principle, clearly understood and faithfully carried out, sectires all the cale of good order and cheerful acquiest ence in all school dulies.

The regular course of study is such as the times require of all those who would enjoy the benefits if a liberal and flusiend education. Masters of the first celebrity are employed in the adpartments of French and Mulic, to which special attention is fine-ted.

The scholastic year comusts of two ferms of five months cach, without historius sine, except the stimas week.

The first term commences with Sep ember and closes with June.

CUNION. The silly creature who is afflicted with a diar rhos of words and discharges them over the above signature is, we see, "out" again in Monday's Journal. His folly is greater than even Prentice can stand god-father to. His Abolitionism is so rampant that even the wily editor of the Journal, who has been hugging the musky thick-lipped wench Abelition to his bosom from his beyhood up, and who has recently followed the ungainly harlot to her own house, and whose eyes are constantly turned lustfully toward her even he has withdrawn his endorsement from "Union," and leaves him to perish like an un. wholesame toad-stool by the light of a single day But the editer of the Journal cannot escape this stage of the game, from the effect of his endorsement and adoption of the sentiments of this prodigal of folly, the writer of "Union," by say-

"We do not approve all the opinions exp by the writer in these articles, but we think them worthy of consideration on account of the wellknown intelligence and political experience of

The endorsement of the Journal's editor has already gone forth to the world. The sentiments of the "No. 3" article are his: the argument is his: and if any of our readers will take the trouble to look at an article in the Journal, published some weeks since, they will find nearly the same language used by the editor of the Journal himself in an abolition article about the "Destruction of Lawrence." In that article the editor of the Journal adopts the "memorial" of the Lawrence traitors as the truth, espouses their cause, and belies, befouls and blackguards the Administration the Democratic members of Congress, and the Democratic party, to his Abolition heart's content; and now be says he "does not approve all the opinions expressed by the writer of these ar-If there is any part excepted out of his approval, we have no guarantee that it is the Abolition part, but every reason to suppose that in it "Union" has given a fatthful daguerreotype of the negro-loving heart of the editor of the Journal.

The Journal says the writer of "Union" is an "Old Line Jeffersonian Democrat." We have imitate. They do not even apologize for it on the the ground that it is recognized in the Constitufalse. The man who could pen such articles has no more idea of what Jeffersonian Democracy is, than he has conception of what the duties of a citi zen of a Southern slaveholding State are.

The writer of "Union" has a villaineus men ory or is else reckless of the judgment he proounces upon himself. In his "No. 3" effort he and does battle for "bleeding Kansas" and freeniggerism with as genuine 'shrieks' as ever Preciev or Lane uttered. In "No. 4" he sets in Here is the sentence "Union" pronounces upon

A man is excusable for not aiding his neigh bor in an unjust quarrel, but not for taking active part against her. Such a man is not apt to be what Western people call whole-hearted. They suspect him of more ambition than patriotism. We "suspect" "Union," is not whole-hearted,

and we question whether he will think himself more than half-witted when he sees the unpatriotic position in which he has placed himself. We append the following abolition argument from "Union's" No. 3." It is identically the argument used by the Lawrence traitors in their 'memorial:" it is the argument at Prentice made, some weeks since. It is the argument of Howard and Sherman in their infamous "majority" report. It is the embodiment of the "shrieks" of the whole abolition pack of the North; it the "active part" "Union" has taken against his own State and section, (admitting Kentucky and the South were wrong, which we do not,) for the doing of which he has become his own accuser. Here is the "active part," for "No. 3:"

"There came to his (the Marshal's) aid some fifty armed Missourians and four hundred mer who had been gathered and sent from South Carolina, Georgia, and Alabama, at the expense of citizens of those States, for the purpose of pre-venting Kansas from becoming a free State. non the assurance of a committee of citizens tention to resist legal process, the marshal was induced to go into the town with only a few of his followers, and after doing what he wanted he returned to his posse, dismissed them from his service and turned them over to a sheriff. This sheriff marched the whole of the armed posse into the town, and assuming to himself the fun tions of both petty jury and judge, pronounce verdict and judgment under the indictment, an proceeded to abate the alleged nuisances. Thoug the hotel was fitted up with a large amount valuable furniture belonging to persons who have leased it, he proceeded to burn down the hote with its valuable contents and to destroy the two printing presses. Whilst a part of these "law and order" men were thus executing the ed themselves over the town robbing and stea i ng everything they could lay their hands on. Th posse was then dismissed, and breaking int small armed bands they traversed the country burning and plundering houses, killing cattle and stealing horses. It is believed that there is but little if any exaggeration in this rep esenta-tion of the conduct of the pro-slavery party in Kansas. It seems to come from reliable sources, and the most of it abundantly proved before the Congressional committee. But be tuat as it may, this is what the Northern people firmly believe as to the treatment of their countrymen in Kansas. In addition some score of respectable citizens have been indicted for and are suffering close imprisonment under the guard of U.S. upon a charge of treason. The only against most or at least some of them which formed a constitution to be presented to Congress with the petition of the people to admit the territory as a State. In thus acting without a law authorizing the convention, they did but follow the example of the people of several territories which have been admitted into the Union under constitutions formed in the same

If "Union" wrote his "No. 3" article through partizan malice, we despise him; and whether produced through ignorance of unwise prejudice, we condemn his opinions as dangerous to the South and utterly unworthy of Kentucky. The only content for the Presise, and Buchanan and a national and just government. "Union," while professing for "warning."

Private upon whose vote the Presidency may possibly, hang, willing to go with the writer of "Union" order to strike Mr. Buchanan to the earth and money market. palsy the arm of Democracy.

Buchananana his Haters. Something more than thirty-five years ago Mr.

Buchanan was elected to Congress. From that time until now he has been a public man, and as such has been always in full view of the people. All his actions and all his votes are before us; they have been for years and years subjected Since his nomination for the Presidency malice and despair have exhausted themselves in the study, and all the result is a cry in the North that he is wholly devoted to the interests of the doctrine of Squatter Sovereignty.

Now Mr. Buchanan has always contended that when the people of a Territory met in lawful assembly to form a Constitution, they had the right to determine whether slavery should or should not exist in the State about to be formed; and when, by his letter of acceptance, he endorsed the Cincinnati platform, and the right of the people of a Territory to determine the existence of slavery among them, he doubtless knew perfectly well that his words would never be misconstrued by his friends, while his enemies would be ready to misconstrue anything he could possibly say. In order to fix his position more vividly before our readers, we give an extract from a letter written from Philadelphia, on the 6th instant, by a gentleman from Alabama, immediately after returning from a conversation with Mr. Buchanan at Wheatland:

"He ridiculed the doctrine of Squatter Sovereignly, and said that the North had now, for the first time in the history of the country obtained from the Government the concession of the true prin-ciple, viz: That the people of a Territory had the right, when they come to form a State Constitution, to say whether they come to form a State Constitution, to say whether they would or would not have slavery. That by its legislation, Congress had admitted that the power was with the people and not in Congress, and the only sensible rule was that this power could be exercised by the people only when they come to form a State Government preparatory to admission into the Union. I give you almost his very words. He said, if he could be elected, he felt satisfied the slavery question would be finally settled, provided he could carry a portion of the New England States or the State of New York. In other words, if he were elected by a national vote, what he would do in the premises would have a national support, and the strength of Free Soilism, which is sectional, would be dispersed. The truth is, Mr. Buchanan is as sound on this question as was Mr. Calhoun, and the Northern Democracy are better Southern men to-day than many Democrats even at the South. Whatever they may have done heretofore, now they meet the question boldly, and defend the institution of with a fearlesness that we might do well to tion, but they say it is right

The Lexington (Mo.) Citizen, extra, of Monday, contains the following Kansas news:

T. W. B. Crews, Esq., of Marshall, passed through town in the stage last night, from Kansas, and brings the important intelligence that Gen. Lane is fortified with large force at Lawrence, and other points between that place and Nebraska, and that more men are needed.

Expresses came in before he left Kansas, bringing information that the Abolitions had taken Tecumseh, with loss to the Pro-slavery party of mseh, with loss to the Pro-slavery party of

we have now about 600 men at New Santa Fe, awaiting reinforcements. Gen Lane has robbed the pro-slavery men of nearly all their horses, and the word with them is "No quarter."

The news is confirmed that Hoyt has been killed. His trunk at Kansas City was opened, and in it was found a map showing the locality of the pro-slavery settlers, designating about 100 who must be killed.

It is also reported that Pomeroy, the agent of the Massachusetts Emigrant Aid Society, has been killed.

The following is from the Lexington (Mo.) Ex-

press of Saturday :

Forgenies.—In the Journal of Saturday morning is a long list of extracts, purporting to be from Democratic speeches, and articles in Democratic papers complimentary of Mr. Fillmore. Most of these extracts are dated 1851 '52. Among them we find the following:

HEAR SENATOR CLAY, OF ALABAMA I think there is no just ground of repreach whatever towards the Executive of the nation. I am happy to see the Senator from Michigan, though standing in different political relations to the President, do him the justice which he has done this day by the declaration of opinion which he has made. Sir, I am perfectly satisfied, from all I know of the President in the president of from all I know of the President and his Cabinet, that there is a most perfect and immovable deter mination to carry into execution the laws of the and, and to employ all the means in their power in order to accomplish it. In a recent letter to the Mirror, the lady denies that she is Fanny Fern, or that she is the wife of anybody. Mr. Parton, also, it is said, most emphatically rejects the skepticism imputed to him, and says that he has never so expressed himself—since his marriage!

Honesty is the best policy especially when influences of a town or city cople are watching you, and we know of some individuals who will find it so, for we do not believe the Kentuckians are fond of humbug soup, humbug side dishes, and humbug announcements of humbug arrangements generally. We believe they understand the proper management of any kind of business enough to know, that any man or men who take pride in, and expect to make thier business profitable, will avail themselves of everything which will add either fame or fortune.

Therefore, in bringing our new style of Pictures before the public, we feel that our reputation is at stake, but we know of no other Glass Picture in which we have so much confidence, nor is there any other style of Pictures one half so beautiful. We have reference to the Sphereotype as taken at Webster's Gallery.
